

BUGS

- Buyer side “Welcome to Parevartan” (**Android app**)
- **In Android**, about us etc. pages are not updated
- At seller side, at the homepage, Live Listing thumbnails > Live pricing showing NA (**Android app**)
- **In Admin panel**, if we try to edit the category, its not allowing us to edit the existing category.

IOS

- In IOS: Landing page its showing grey box with no details
- If we tap on any category, in android its saying “NO DATA FOUND with icon” but in IOS its saying “THE LIST IS EMPTY with no icon”
- We don’t want Live prices in IOS in the landing page
- We don’t want search bar
- Login: As a seller, As a buyer alignment
- In dashboard, it should say No data found if there is no data, but it showing a grey coloured box
- When clicking on “Upload Listing” there shud be a form.
- No back button inside the “upload listing and so on”
- In buyer login, keyboard is not going down.

(OVERALL IOS IS FACING THE SAME BUGS)
